PREFACE

Dear Distinguished Delegates and Guests,

The Organizing Committee warmly welcomes our distinguished delegates and guests to the 2015 4th International Conference on Environment, Chemistry and Biology (ICECB 2015) held on November, 19-21, 2015 in Auckland, New Zealand.

ICECB 2015 are sponsored by Asia-Pacific Chemical, Biological & Environmental Engineering Society (APCBEEES), and supported by APCBEEES Members and scholars from universities all round the world. If you have attended a conference sponsored by APCBEEES before, you are aware that the conferences together report the results of research efforts in a broad range of Environment, Chemistry and Biology. These conferences are aimed at discussing with all of you the wide range of problems encountered in present and future high technologies. ICECB 2015 are organized to gather members of our international community scientists so that researchers from around the world can present their leading-edge work, expanding our community's knowledge and insight into the significant challenges currently being addressed in that research. The conference Program Committee is itself quite diverse and truly international, with membership from the Americas, Europe, Asia, Africa and Oceania.

This proceeding records the fully refereed papers presented at the conference. The main conference themes and tracks are Environment, Chemistry and Biology. The main goal of these events is to provide international scientific forums for exchange of new ideas in a number of fields that interact in-depth through discussions with their peers from around the world. Both inward research; core areas of Environment, Chemistry and Biology and outward research; multi-disciplinary, inter-disciplinary, and applications will be covered during these events.

The conference has solicited and gathered technical research submissions related to all aspects of major conference themes and tracks. All the submitted papers in the proceeding have been peer reviewed by the reviewers drawn from the scientific committee, external reviewers and editorial board depending on the subject matter of the paper. Reviewing and initial selection were undertaken electronically. After the rigorous peer-review process, the submitted papers were selected on the basis of originality, significance, and clarity for the purpose of the conference. The selected papers and additional late-breaking contributions to be presented as lectures will make an existing technical program. The conference program is extremely rich, featuring high-impact presentations.

The high quality of the program – guaranteed by the presence of an unparalleled number of internationally recognized top experts – can be assessed when reading the contents of the program. The conference will therefore be a unique event, where attendees will be able to appreciate the latest results in their field of expertise, and to acquire additional knowledge in other fields. The program has been structured to favor interactions among attendees coming from many diverse horizons, scientifically, geographically, from academia and from industry. Included in this will to favor interactions are social events at prestigious sites.

We would like to thank the program chairs, organization staff, and the members of the program committees for their work. Thanks also go to Editor Ms. Liu Juan, Asia-Pacific Chemical, Biological & Environmental Engineering Society, for their wonderful editorial service to this proceeding.

We are grateful to all those who have contributed to the success of ICECB 2015. We hope

that all participants and other interested readers benefit scientifically from the proceedings and also find it stimulating in the process. Finally, we would like to wish you success in your technical presentations and social networking.

We hope you have a unique, rewarding and enjoyable week at ICECB 2015 in Auckland, New Zealand.

With our warmest regards,

The Organizing Committees
November, 19-21, 2015
New Zealand.

Organizing Committees

Conference General Co-Chairs

Prof. Chin Jian Leo, University of Western Sydney, Australia

Prof. Wei Yu, The University of Auckland, New Zealand

Program Co-Chairs

Prof. Mohamed Abdel_Moneim Abdel-Rohman, Kuwait University, Kuwait

Prof. Swaroopa Rani N. Gupta, Analytical Chemistry from Nagpur University, Nagpur, Maharashtra, India

Contact Chair

Lydia Liu, Asia-Pacific Chemical, Biological & Environmental Engineering Society

Technical Committee

Prof. AHSANUL KABIR, Bangladesh University of Engineering and Technology (BUET), Dhaka

Prof. K.Jagannadha Rao, Chaitanya Bharathi Institute of Technology, Telangana State, India

Dr. Manish A. Kewalramani, College of Engineering and Computer Science, Abu Dhabi University, Abu Dhabi (UAE)

Prof. Lucio Nobile, Department DICAM, University of Bologna-Campus of Cesena, Italy

Dr. C.CHELLARAM, Department of Biomedical Engineering, Veltech Multitech Engineering College, Chennai

Dr. Sufia Irfan, Biology Department, University of Tabuk, Saudi Arabia

Prof. NANA AGYEI, UNIVERSITY OF LIMPOPO MEDUNSA CAMPUS, SOUTH AFRICA

Dr. Marcus Franke, Friedrich-Schiller-University Jena, Institute for Technical

Chemistry and Environmental Chemistry, Germany

Dr. Zahra Emam-Djomeh, Engineering & Technology College of Agriculture & Natural Resources, University of Tehran, Iran

Dr. Sanaullah Iqbal, Faculty of Bio-Sciences, University of Veterinary and Animal Sciences, Lahore–Pakistan

Dr. Naureen Naeem, Faculty of Bio-Sciences, University of Veterinary and Animal Sciences, Lahore–Pakistan

Dr. Xilin Xu, College of Food and Bioengineering, South China University of Technology, China

Dr. Vijith S Jayamanne, Faculty of Agriculture, University of Ruhuna, SRI LANKA

Dr. Yi-Yuan Shao, Department of Food Science, Nutrition, and Nutraceutical Biotechnology, Shih Chien University, Taiwan

Dr. Adekunle Olakunle Felix, Pusat Bahasa Laguna, Thailand

Table of Contents

ICECB 2015---Environment, Chemistry and Biology

Immobilized β -Galactosidase on Functionalized Nanoparticles and Nanofibers: A Comparative Study <i>Mailin Misson, Bo Jin, and Hu Zhang</i>	1
Experimental Study on Heat and Mass Transfer of Flexible Filamentous Particles in a Rotary Dryer <i>Conghui Gu, Bin Li, Kaili Liu, Zhulin Yuan, Wenqi Zhong</i>	8
Simultaneous Production of Biopolymer and Biosurfactant by Genetically Modified <i>Pseudomonas Aeruginosa</i> UMTKB-5 <i>Noor-Fazielawanie Mohd Rashid, Mohamad-Azran Faris Mohamad Azemi, Al-Ashraf Abdullah Amirul, Mohd Effendy Abdul Wahid, Kesaven Bhubalan</i>	16
Lichen Used to Assess Nickel Atmospheric Dispersion, an Example of New Caledonia <i>Camille Pasquet, Pauline Le Monier, Fabrice Monna, Christophe Durllet, Benjamin Brigaud, R éni Losno, Christine Laporte-Magoni, Peggy Gunkel-Grillon</i>	22
Simulation of Solid Flow Behavior in Dense Phase Pneumatic Conveying with a Bend by a New Model <i>Shanshan Sun, Zhulin Yuan, Wenqi Zhong</i>	28
Investigation and Evaluation of Air Pollution Risk Management in Hospital Incineration (Case Study: Hospital Incineration Plant of Tehran) <i>Amirhossein Ashouri, Bahareh Sadhezari</i>	36
Study of Transport of Biologically Important Compounds in Environment across Biological Membranes and Development of Methods for their Determinations <i>Tomáš Navrátil, Ivana Šestáková, Hana Vodičková, Jana Jaklová Dyrťová and Miroslav Gál</i>	43
Eco-friendly Extreme Pressure Lubricants for Water based Drilling Fluids <i>Rakshith R Shettigar, Nirendra M Misra, Bhaskar Naik and Khushbu Patel</i>	51
Considerations for the Integrated Environmental Management System in Korea <i>Heekyung An, Jongmin Kim, Woojin Kim, Kangwon Lee and Taejin Hwang</i>	59
Solubility Property of Brine with Different Dilutions Ratio and Properties Analysis of Low-Grade Solid Potash Ores <i>Shaolei Xie, Chenglong Shi, Fanglong Qiu, Jinghe Sun, Yongzhong Jia</i>	63
Preparation and Thermal Property of Ionic Liquid based on ZnCl ₂ /ChCl <i>Qiu Fanglong, Sun Jinhe, Xie Shaolei, Shi Chenglong, Jia Yongzhong</i>	70
Extraction of Lithium Ion Using Ionic Liquids Dissolved in Tributyl Phosphate <i>Chenglong Shi, Yongzhong Jia, Shaolei Xie, Fanglong Qiu, Yan Jing</i>	76
Adsorption Studies of Methylene Blue on TiO ₂ Nanoparticles: Experimental and Mathematical Modeling <i>Guncha Munjal, Garima Dwivedi and Ashok N. Bhaskarwar</i>	82
The Effect of Vapour-Control Membrane Technology on Indoor Air Quality in Buildings	87

<i>Terri-Ann Berry and Jordan, H.D. Chiswell</i>	
The Applicability of Salt Cleaning for Control of Membrane Algal Fouling <i>Min Jung Jeon, Jaehun Kim, Bomi Kim, Euijong Lee and Hyungsoo Kim</i>	94
Natural Dye-Sensitized Solar Cells with Polyaniline Counter Electrode <i>Garima Dwivedi, Guncha Munjal and Ashok N. Bhaskarwar</i>	101
Land Use and Cover Change Simulation and Prediction in Hangzhou City Based on CA-Markov Model <i>Tian Yuan, Xia Yiping, Zhou Lei and Li Danqing</i>	108
ICESB 2015---Environment Science and Biotechnology	
Analysis of Recycled-Glass Immobilised and Suspended TiO ₂ in the Photocatalytic Oxidation of Chlorophenols in Batch Processes <i>Zack Khuzwayo and Evans Chirwa</i>	114
Metagenomic Analysis of Bacteria Community in Activated Sludge of Domestic Waste Water Treatment Plant <i>Nang Hein Nandar Htwe, Kazuhiko Miyanaga, Analiza P. Rollon and Yasunori Tanji</i>	120
Dynamics of Hydrological Regime in Permafrost Zone of Central Siberia <i>Tamara Burenina, Alexander Onuchin, Georg Guggenberger, Anastasia Musokhranova and Dmitri Prisov</i>	125
A Comparative Study on the Efficiency of SRF and Different Kinds of Source-Separated Household Wastes as a Solid Fuel <i>Min-Gyeong Gu, Da-Young Nam, Min-Jeong Gu, Hak-Ho Nam, Hyun-Jeong Park and Chan-Jin Park</i>	133
On the Application of Ion clusters for Treatment of Odors <i>Ji Ye Yoo, Jin Yong Choi, Eun Ji Woo and Chan Jin Park</i>	139
The Pattern of South Equatorial Current and Primary Productivity in South Java Seas <i>Rizky M. Utamy, Noir P. Purba, Widodo S. Pranowo and Henhen Suherman</i>	145
