help us improve at the cost of doing things that do no need to be jittery about every change in a metric not by a long shot measures of success shows a better way to chart and manage your metrics in any organization or setting for your business processes and activities you need to know what s working what s not and what to change and why then you can determine what to stop doing what to start doing what to keep doing so you can jump off the metrics rollercoaster by responding to signals systematically sustainably learn how to identify meaningful signals in a metric to respond just right or perhaps not at all you ll learn how with methods easy to understand making it obvious what activities to do next loads of vivid stories and clear examples from healthcare software companies and more with compelling case studies from the news and personal lives too what gets measured gets managed we ve all heard that but did you ever learn how to manage a metric this ain t about gaming the system or fudging the numbers this is about delivering real value understood by everyone and proven with data learn a better way to manage your measures who is measures of success for executives and leaders in healthcare manufacturing and services who know what to measure and are now ready to learn how to manage those measurements and willing to challenge and change the way things are done today motivate workers to think and do them better tomorrow coach people versus telling them what to do be responsible for results not hold others accountable encourage people to collaborate not compete help people sleep better at night because they re improving their work during the day to be clear measures of success is not for leaders who d rather give orders then blame others when things go south that whole hit the target or else thing won t create real change nor real value but that ain t you right after reading measures of success you ll be able to answer three critical questions for your business are we achieving our target and how often occasionally consistently are we improving and can we predict our future performance how do we improve and when do we react when do we ignore when do we improve and how can we prove we re improving how would you feel if you could answer these questions for your business measures of success shows you how process behavior charts this book teaches you a proven method for filtering out noise so we can identify signals this means we waste less time chasing our tail and more time responding to signals that really matter heading off small problems before they become big or showing that we ve boosted performance in significant and sustainable ways as this book by jo osler and jill flack makes clear professional learning has a critical edge in terms of what it means not only for teachers practice but also for students learning these two highly skilled teacher researchers illustrate what is possible when professionals choose to develop and extend their own knowledge in ways that are driven by their concern for the development of their own professional practice in innovative and creative ways positive student behaviors are desired outcomes but this manual concentrates on inputs how do you respond to difficult behavior in the moment when you know that punitive compliance based behavior management is so often ineffectual what s the best way to prevent students from acting out in the first place the path to success requires behavioral leadership in which teachers strategically model and affirm the behaviors they want to see in students behavior expert scott ervin calls on his two decades of experience to share the most effective procedures and strategies to foster positive prosocial student behavior that supports learning including ways to organize your physical classroom to support positive classroom management build positive teacher student relationships share control with students in a way that best fosters their autonomy the classroom behavior manual is a resource you can return to again and again packed with more than 100 strategies and dozens of procedures and tools learn how to respond to negative behaviors in nonpunitive ways so that you can ensure all students school days are as calm engaging and educational as they possibly can be this book seeks to press the wisdom of proverbs into active duty in the trenches of everyday life and put the principles of character formation in working clothes the wisdom proverbs describes is not designed to master life s challenges but to learn to manage them and adapt in learning to adapt individuals grow and mature spiritually relying on solid biblical scholarship this book brings to the fore the neglected sentence literature in proverbs 10 29 and the vital resources they contribute to the process of character formation contrary to popular opinion the book of proverbs even though addressed to youth is not a book solely for the young but for those of all ages who desire to continue to grow personally and in their relationship with others and god the wise in the book of proverbs employ a plethora of resources to help train up young and old alike to grow into the character of god among others these resources include the value of interacting with others a healthy understanding of conflict an appropriate perspective on wealth a new appreciation for and reliance on the role of the neglected proverb in the education process and the vital role of family and the faith community ultimately the whole process of character formation is founded upon
one’s relationship with God and the fear of the Lord this book is about the various places and ways that uncertainty shows up for parents who having left or altered the faith they once knew now must decide what to give their kids it’s about church attendance bible memorization school choices and sex talks it’s about forging new paths in racial justice and creation care while the intractable voices in your head call you a pagan marxist for doing so after the spectacular implosion of her ministry career bekah mcneel was left disillusioned and without the foundation of certainty she had built her life on but rather than leaving the Christian faith altogether she hung out around the edges began questioning oversimplified categories of black and white that she had been taught were sacred and became comfortable living in gray areas while starting a new career in journalism then she had kids from the moment someone asked if she was going to have her first child baptized bekah began to wonder if the conservative evangelical Christianity she grew up with was really something she wanted to give her children that question only became more complicated when she had her second child months before white evangelicals carried Donald Trump to victory in the 2016 presidential election soon bekah found that other parents were asking similar questions as they broke with their fundamentalist religious upbringing and took on new values they raise their kids to live with both the security of faith and the freedom of open mindedness to value both scripture and social justice to learn morality without shame in bringing up kids when church lets you down bekah gathers voices from history scholarship and her own community to guide others who like her are on a quest to shed the false certainty and toxic perfectionism of their past to become better healthier parents while still providing strong spiritual foundations for their children she writes with humor and empathy providing wise reflections but not glib answers on difficult parenting topics while reminding us that we are not alone even when we break away from the crowd i’ve always admired the writing of elisabeth sharp mcketta and her beautiful ambitious first novel demonstrates why she never told me about the ocean is a heroine’s journey through forgiveness birth and rebirth all the while treading the line between honoring the dead and feeling paralyzed by them she has offered us a complicated portrait of mothers and daughters cupped inside one another like nesting dolls arthur golden author of memoirs of a geisha she never told me about the ocean is a tidal and intimate book brimming over with wonders and terrors and the watery echoes that bind generations of women what a pleasure this book is from start to finish mcketta maps the dark portals through which her women continuously reinvent themselves newborn at every age karen russell author of swamplandia and orange world and other stories told by four women whose stories nest together she never told me about the ocean is an epic about a rite of passage that all humans undergo and none remember birth eighteen year old sage has been mothering her mother for as long as she can remember and as she arrives on the shores of adulthood she learns a secret before she was born she had an older brother who drowned in her search to discover who he was and why nobody told her sage moves to tiny dragon island where her mother grew up there she embarks on a quest to learn the superstitions of the island especially its myths involving her mother gathering stories from ilya a legendary midwife who hires sage as her apprentice marella sage’s grieving mother who was named for the ocean yet has always been afraid of it and charon the underworld ferrywoman who delivers souls to the land of the dead sage learns to stop rescuing her mother and simply let go but when her skill as ilya’s apprentice enables her to rescue her mother one final time in a way that means life or death sage must shed her inherited fears and become her own woman my life begun hard and it seemed to just become more and more difficult throughout the years i once lived a life like j c dougard and elizabeth smart but instead of one sexual predator i had many they had families to go home to where i had none i was forgotten about years and years ago and pretty much raised myself with only god’s guidance since the age of thirteen i’ve been exploited trafficked raped held hostage kidnapped and more then god stepped in when death was almost beating at my door he stepped in sometimes i feel as if my life wasn’t planned by me but by god once you read my story i’m sure you’ll understand you see all of my hopes dreams and plans for my life became sidetracked long ago due to many factors that took away so many of my plans my dreams for the future through it all i’ve become an amazing woman able to stand tall and strong finding my inspirations along the way and praising god for all of his angels saints and prophets who’ve come along and saved me rescued me carried me and blessed my life so profoundly with their kind gentle caring ways do you view human beings as just people or are you able to experience such a close relationship with god that you can view people as the little gods they are aren’t we all supposed to be reflections of our lord and savior then why aren’t you able to view those people for the gifts they are or are you able to see yourself and others how god sees you i hope

reinforcement processes that form the basis of aba programs having covered these essential principles he describes how the science of behavior analysis can be effectively applied to real life behavior problems he looks at how behavior is assessed and various intervention techniques that are often employed with children who have autism and other special needs having laid these essential foundations kearney touches on more advanced topics the applications of aba in behavioral education such as precision teaching and programmed instruction the current model of parental discipline is as outdated as a rotary phone why don't our kids do what we want them to do parents often take the blame for misbehavior but this obscures a broader trend in our modern highly connected age children have less self control than ever about half of the current generation of children will develop a mood or behavioral disorder or a substance addiction by age eighteen contemporary kids need to learn independence and responsibility yet our old ideas of punishments and rewards are preventing this from happening to stem this growing crisis of self regulation journalist and parenting expert katherine reynolds lewis articulates what she calls the apprenticeship model a new theory of discipline that centers on learning the art of self control blending new scientific research and powerful individual stories of change lewis shows that if we trust our children to face consequences they will learn to adapt and moderate their own behavior she watches as chaotic homes become peaceful bewildered teachers see progress and her own family grows and evolves in light of these new ideas you'll recognize your own family in lewis's sensitive realistic stories and you'll find a path to making everyone in your home more capable kinder and happier including yourself applied behavior science in organizations provides a compelling overview of the history of organizational behavior management obm and the opportunity child psychologist comes this groundbreaking new understanding of children s behavior offering insight and strategies to support both parents and children nominated for malcolm gladwell susan cain adam grant and daniel pink s next big idea club over her decades as a clinical psychologist dr mona delahooke has routinely counseled distraught parents who struggle to manage their children s challenging sometimes oppositional behaviors these families are understandably focused on correcting or improving a child s lack of compliance emotional outbursts tantrums and other out of control behavior but as she has shared with these families a perspective shift is needed behavior no matter how challenging is not the problem but a symptom a clue about what is happening in a child s unique physiologic makeup in brain body parenting dr delahooke offers a radical new approach to parenting based on her clinical experience as well as the most recent research in neuroscience and child psychology instead of a top down approach to behavior that focuses on the thinking brain she calls for a bottom up approach that considers the essential role of the entire nervous system which produces children s feelings and behaviors when we begin to understand the biology beneath the behavior suggests dr delahooke we give our children the resources they need to grow and thrive and we give ourselves the gift of a happier more connected relationship with them brain body parenting empowers parents with tools to help their children develop self regulation skills while also encouraging parental self care which is crucial for parents to have the capacity to provide the essential regulation children need when parents shift from trying to secure compliance to supporting connection and balance in the body and mind they unlock a deeper understanding of their child encouraging calmer behavior and increased resilience finding mrs warnecke tells the inspiring story of cindi rigsbee a three time teacher of the year and barbara warnecke the first grade teacher who had a profound and lasting impact on cindi s life cindi an insecure child who craved positive attention started her first grade year with a teacher who was emotionally abusive and played favorites in the classroom two months into the school year her principal came into the classroom and announced that half the students were being moved to another classroom a dank windowless basement room with a young and inexperienced teacher this change turned out to be the best thing that ever happened to cindi her new teacher mrs warnecke made learning come alive for her students she went overboard caring for each child made her classroom magical and encouraged students to pursue their dreams although cindi was reluctant to explore her creativity as a student mrs warnecke encouraged her to read and write poetry which became a lifelong passion the two kept in touch for several years but lost track of each other when mrs warnecke moved out of state cindi spent many years trying to reconnect so she could thank mrs warnecke for making such a difference in her life but to no avail eventually cindi became a teacher herself and thirty years later she has taught more than 2 000 children and been named teacher of the year for her home state she later came to realize that all those years she wasn t really trying to track down barbara warnecke but rather she was trying to find mrs warnecke within herself in fall 2008 cindi and barbara were reunited on good morning america the show s producers had tracked barbaras down and brought both women on set for a tearful reunion barbara was floored at this attention she had no idea she could have made such an impact on a former student s life as cindi travels around talking with new and veteran educators she is always approached by audience members who are moved to tears and want to share the story of the mrs warnecke in their own lives finding mrs warnecke not only tells the story of this teacher who made a lifelong impact on her students it illustrates the importance of the teacher student relationship in the classroom and offers principles for other teachers to follow to make a positive impact in their own classrooms the fundamental aim of youth work is to build trusting and mutually respectful relationships with young people creating transformative experiences for young people in formal and informal spaces outside of homes and schools these complex and multidimensional situations mean that

Bringing Up Kids When Church Lets You Down 2022-10-11 this book is about the various places and ways that uncertainty shows up for parents who having left or altered the faith they once knew now must decide what to give their kids it s about church attendance bible memorization school choices and sex talks it s about forging new paths in racial justice and creation care while the intractable voices in your head call you a pagan marxist for doing so after the spectacular implosion of her ministry career bekah mcneel was left disillusioned and without the foundation of certainty she had built her life on but rather than leaving the
Christian faith altogether she hung out around the edges began questioning oversimplified categories of black and white that she had been taught were sacred and became comfortable living in gray areas while starting a new career in journalism then she had kids from the moment someone asked if she was going to have her first child baptized bekah began to wonder if the conservative evangelical christianity she grew up with was really something she wanted to give her children that question only became more complicated when she had her second child months before white evangelicals carried donald trump to victory in the 2016 presidential election soon bekah found that other parents were asking similar questions as they broke with their fundamentalist religious upbringing and took on new values could they raise their kids to live with both the security of faith and the freedom of open mindedness to value both scripture and social justice to learn morality without shame in bringing up kids when church lets you down bekah gathers voices from history scholarship and her own community to guide others who like her are on a quest to shed the false certainty and toxic perfectionism of their past to become better healthier parents while still providing strong spiritual foundations for their children she writes with humor and empathy providing wise reflections but not glib answers on difficult parenting topics while reminding us that we are not alone even when we break away from the crowd

She Never Told Me About the Ocean 2021-03-02 i ve always admired the writing of elisabeth sharp mcketta and her beautiful ambitious first novel demonstrates why she never told me about the ocean is a heroine s journey through forgiveness birth and rebirth all the while treading the line between honoring the dead and feeling paralyzed by them she has offered us a complicated portrait of mothers and daughters cupped inside one another like nesting dolls arthur golden author of memoirs of a geisha she never told me about the ocean is a tidal and intimate book brimming over with wonders and terrors and the watery echoes that bind generations of women what a pleasure this book is from start to finish mcketta maps the dark portals through which her women continuously reinvent themselves newborn at every age karen russell author of swamplandia and orange world and other stories told by four women whose stories nest together she never told me about the ocean is an epic about a rite of passage that all humans undergo and none remember birth eighteen year old sage has been mothering her mother for as long as she can remember and as she arrives on the shores of adulthood she learns a secret before she was born she had an older brother who drowned in her search to discover who he was and why nobody told her sage moves to tiny dragon island where her mother grew up there she embarks on a quest to learn the superstitions of the island especially its myths involving her mother gathering stories from ilya a legendary midwife who hires sage as her apprentice marella sage s grieving mother who was named for the ocean yet has always been afraid of it and charon the underworld ferrywoman who delivers souls to the land of the dead sage learns to stop rescuing her mother and simply let go but when her skill as ilya s apprentice enables her to rescue her mother one final time in a way that means life or death sage must shed her inherited fears and become her own woman

Crossing My Jordan 2011-07-28 my life begun hard and it seemed to just become more and more difficult throughout the years i once lived a life like j c dougard and elizabeth smart but instead of one sexual predator i had many they had families to go home to where i had none i was forgotten about years and years ago and pretty much raised myself with only god s guidance since the age of thirteen i ve been exploited trafficked raped held hostage kidnapped and more then god stepped in when death was almost beating at my door he stepped in sometimes i feel as if my life wasn t planned by me but by god once you read my story i m sure you ll understand you see all of my hopes dreams and plans for my life became sidetracked long ago due to many factors that took away so many of my plans my dreams for the future through it all i ve become an amazing woman able to stand tall and strong finding my inspirations along the way and praising god for all of his angels saints and prophets who ve come along and saved me rescued me carried me and blessed my life so profoundly with their kind gentle caring ways do you view human beings as just people or are you able to experience such a close relationship with god that you can view people as the little gods they are aren t we all supposed to be reflections of our lord and savior then why aren t you able to view those people for the gifts they are or are you able to see yourself and others how god sees you i hope you enjoy the journey of my life my story my testimony as much as i enjoyed writing it my story is a story of tragedy but yet it is also one full of inspiration hope strength courage family and love but mainly my story is about life s lesson s learned enjoy p j taylor

Brain-Body Parenting 2022-03-15 finding mrs warnecke tells the inspiring story of cindi rigsbee a three time teacher of the year and barbara warnecke the first grade teacher who had a profound and lasting impact on cindi s life cindi an insecure child who craved positive attention started her first grade year with a teacher who was emotionally abusive and played favorites in the classroom two months into the school year her principal came into the classroom and announced that half the students were being moved to another classroom a dank windowless basement room with a young and inexperienced teacher this change turned out to be the best thing that ever happened to cindi her new teacher mrs warnecke made learning come alive for her students she went overboard caring for each child made her classroom magical and encouraged students to pursue their dreams although cindi was reluctant to explore her creativity as a student mrs warnecke encouraged her to read and write poetry which became a lifelong passion the two kept in touch for several years but lost track of each other when mrs warnecke moved out of state cindi spent many years trying to reconnect so she could thank mrs warnecke for making such a difference in her life but to no avail eventually cindi became a teacher herself and thirty years later she has taught more than 2 000 children and been named teacher of the year for her home state she later came to realize that all those years she wasn t really trying to track down barbara warnecke but rather she was trying to find mrs warnecke within herself in fall 2008 cindi and barbara were reunited on good morning america the show s producers had tracked barbara down and
brought both women on set for a tearful reunion. Barbara was floored at this attention she had no idea she could have made such an impact on a former student's life. As Cindi travels around talking with new and veteran educators, she is always approached by audience members who are moved to tears and want to share the story of the Mrs Warnecke in their own lives. Finding Mrs Warnecke not only tells the story of this teacher who made a lifelong impact on her students, it illustrates the importance of the teacher-student relationship in the classroom and offers principles for other teachers to follow to make a positive impact in their own classrooms.

The fundamental aim of youth work is to build trusting and mutually respectful relationships with young people creating transformative experiences for young people in formal and informal spaces outside of homes and schools. These complex and multidimensional situations mean that the day to day work of youth workers is full of dilemmas pitting moral developmental motivational organizational and other concerns against each other. By showing how different youth workers respond to a variety of such dilemmas, this authentic text makes visible youth workers' unique knowledge and skills and explores how to work with challenging situations from the everyday to the extraordinary. Beginning by setting out a framework for dilemma resolution, it includes a number of narrative based chapters in which youth workers describe and reflect on dilemmas they have faced. The knowledge and experiences they brought to bear on them and alternative paths they could have taken. Each chapter closes with a discussion from the literature about themes raised in the chapter, an analysis of dilemma, and a set of overarching discussion questions designed to have readers compare and contrast the cases and consider what they would do in the situation and reflect on their own practice. This practical book reveals essential dimensions of the profession and contributes to a practice based theoretical foundation of youth work.

In this poignant and heart wrenching true story, Regina Louise recounts her childhood search for connection in the face of abuse, neglect, and rejection. What happens to a child when her own parents reject her and sit idly by as others abuse her? In this poignant, heart-wrenching debut work, Regina Louise recounts her childhood search for someone to feel connected to. A mother she has never known but long fantasized about deposited her and her half-sister at the same group home that she herself fled years before. When another resident beats Regina so badly that she can barely move, she knows that she must leave this terrible place. The only home she knows thus begins Regina’s fight to survive utterly alone at the age of 10. A stint living with her mother and her abusive boyfriend is followed by a stay with her father’s lily-white wife and daughters who ignore her. Before turning to abuse and ultimately kicking her out of the house, Regina then tries everything in her search for someone to care for her and to care about from taking herself to jail to escaping countless foster homes to be near her beloved counselor. Written in her distinctive and unique voice, Regina’s story offers an in-depth look at the life of a child who no one wanted. From her initial flight to her eventual discovery of love, your heart will go out to Regina’s younger self and you’ll cheer her on as she struggles to be somebody’s someone.

Win Win. W. Edwards Deming. The System of Profound Knowledge and the Science of Improving Schools is for systems leaders who lead our country’s school districts, charter management organizations, and educational nonprofits and government agencies as well as for those who train these system leaders in our graduate schools of education. The strategies for school improvement detailed in this book are based on the theories of W. Edwards Deming, who was known as the father of the quality movement and was hugely influential in post-World War II Japan. He is most well-known for his theories of management. Win Win offers real-world strategies to education leaders of improvement based on Deming’s System of Profound Knowledge. A leader of improvement does not need to be expert in the four components of profound knowledge, but they do need to understand the basic theory, their interconnectedness, and why they are necessary for these efforts. Win Win provides this basic understanding. This book equips the reader with the knowledge and skills needed to harness the power of the System of Profound Knowledge to improve the performance of schools systems, students, and teachers. It can be used in a variety of classrooms in colleges of education and it is the perfect teaching tool in professional development efforts. Perfect for courses such as organizational change strategies of educational leadership, school district improvement using data analysis, supervision theory and practice, theory research, leadership transformational systems leadership, philosophical and theoretical foundations of leadership, the philosophy of scientific knowledge, systemic educational reform, applied improvement science investigations.
