Power to Get Wealth: No Money Required 2011 what exactly is it that enables us to live as we do today is it that we work harder or that we have more money the simple truth is that we can live differently from how we lived a hundred years ago and a thousand years ago because of the accumulated sum of new ideas encapsulated in new technology money is in this sense only one small part of new technology the myriad of ideas and inventions that support our way of living today why then are most solutions and even problems formulated in terms where money is essential it is because it is the way we have been taught to think concepts used in economics often grossly misinterpreted have become our prison leading us into a very inhumane world and we do not even see the prison bars that confines us to certain solutions because we think this is just how it must be we think it is established science and because we do not even see the prison bars we become our own wardens we have thus been beguiled by economists to think that money is wealth and this creates an inhumane world instead we should focus on ideas and our true needs as the source of creating true wealth but if we are to get away from the present focus on money and speculation to get more money we must change how we think and for that we need new ideas concepts and models however new ways of thinking about
economists would loose a lot of prestige or even their jobs and the rich would loose the easy ways they have invented to become rich by creating bubble money we need new ways of viewing what is true wealth and how such is created this way and only this way can we break free from the prison of economic thoughts that today dominate us by applying his long experience in modeling the author shows alternate ways of viewing wealth true wealth based on modern research and sound principles of modeling and that is thus what this book is all about this book contain some mathematics if you prefer a book without mathematical expressions i recommend my book a new monetary system
