This book highlights inconsistencies within the field of sports scholarship and provides an opportunity to open up and extend conversations about the intersection of sports media and race, particularly surrounding athletes of East Asian descent. Despite the growing influence of East Asian and Asian American Canadian athletes, they are still underrepresented in Western media and in scholarship. This anthology adds much-needed literature to sports popular culture, East Asian and Asian American studies. The prominence of sports in global popular culture makes the intersections explored in this collection a crucial addition to existing conversations about both sports and East Asian, Asian American, and Canadian studies.

They are the forgotten figures; they came from Africa, the Caribbean, the Americas, and the United Kingdom and showed America how to play soccer. They exhibited highly technical skills of the game and taught the youths in communities across the USA and Canada—often as role models. They were the first MVPs of the league, the first NASL Rookie of the Year, and among the leading scorers and led their teams to NASL titles in the process. They played a significant role in making the NASL a world-respected league and led to MLS. Their efforts made soccer an American sport, and among them were Alberto Archibald Auguste, Best, Charles Coker, Cole, Cubillas, Cummings, David De Leon, Eusebio, Evans, Fowles, Gamaldo, Grell, Horne, Ingram, Kapengwe, Knight, Lamentey, Largie, Lewis, Lichaba, Lindsay, Mathieu, Mfum, Mokgoja, Motaung, Mwila, Ntselengoe, Odoi, Pearce, Phillips, Sanon, Scott, Sono, St. Lot, St. Vil, St. Vil, Steadman, Welch, Welch, Whalen, and Pelé. It all started with them; now they will be forgotten no more. This book is their tribute.

Jerrold Casway coined the phrase 'the Emerald Age of Baseball' to describe the 1890s when so many Irish names dominated teams' rosters but one can easily agree and expand that the period from the mid-1830s well into the first decade of the 20th century and assign the term to American sports in general. This book covers the Irish sportsman from the arrival of James Deaf Burke in 1836 through to Jack Kelly's rejection by Henley Regatta and his subsequent gold medal at the 1920 Olympics. It avoids recounting the various victories and defeats of the Irish sportsman seeking instead to deal with the complex interaction that he had with alcohol, gambling, and Sunday leisure pleasures that were banned in most of America at some time or other between 1836 and 1920. This book also covers the Irish sportsman's close relations with politicians, his role in labor relations, his violent lifestyle, and by contrast his participation in bringing respectability to sport. It also deals with native Irish sports in America—the part played by the Irish in Team USA's initial international sporting ventures and in the making and breaking of amateurism within sport.

Issues in North American Sport and Physical Education 1997

Is violence an intrinsic component of contemporary sport? How does violence within sport reflect upon the attitudes of wider society? In this landmark study of violence in and around contemporary sport, Kevin Young offers the first comprehensive sociological analysis of an issue of central importance within sport studies. The book explores organized and spontaneous violence both on the field and off and calls for a much broader definition of sports-related violence to include issues as diverse as criminal behaviour by players, abuse within sport and exploitative labor practices. Offering a sophisticated new theoretical framework for understanding violence in a sporting context and including a wide range of case studies and empirical data from professional soccer in Europe to ice hockey in North America, the book establishes a benchmark for the study of violence within sport and wider society, through close examination of often contradictory trends from anti-violence initiatives in professional sports leagues to the role of the media in encouraging hyper-aggression. The book throws new light on our understanding of the socially embedded character of sport and its fundamental ties to history, culture, politics, social class, gender and the law.
