Irresistible Empire

2009-07

the most significant conquest of the twentieth century may well have been the triumph of american consumer society over europe's bourgeois
civilization it is this little understood but world shaking campaign that unfolds in de grazia's account of how the american standard of living defeated
the european way of life and achieved the global cultural hegemony that is both its great strength and its key weakness today tracing the peculiar
alliance that arrayed new world salesmanship statecraft and standardized goods against the old world's values of status craft and good taste de
grazia describes how all alternative strategies fell before america's consumer oriented capitalism first the bourgeois lifestyle then the third reich's
command consumption and finally the grand experiment of soviet style socialist planning from publisher description

this is the second of a two volume study of the dynamics of the mt version of the book of jeremiah the first volume published in 2017 analyzed chapters 1 25 and this volume will focus on chapters 25 52 of the mt version as with the first volume the aim of this one is to show the reader how by paying attention to the dynamics of the text namely how individual passages relate to their immediate and wider contexts a new understanding of the book emerges rather than a loose collection of material assembled over a period of time by a variety of hands one can discern how the parts of the book combine to portray the dramatic unfolding of jeremiah s prophetic vocation and how his relationship with god and god s people form an integral part of the book s presentation of the word of god
god if you're real make yourself real to me each of us spends our lives on a journey toward god yet often our most deeply felt longings for meaning for love for significance end up leading us away from instead of toward our creator and the person he made us to be finding your way back to god shows you how to understand and listen to your longings in a whole new way it's about waking up to who you really are and daring to believe that god wants to be found even more than you want to find him it's about making the biggest wager of your life as you ask god to make himself known to you and it's about watching what happens next

Ruins have fascinated and intrigued viewers for centuries; these include not only famous sites like Angkor Wat and the Temple of Olympian Zeus but the remnants of natural disasters like the Lisbon earthquake. This book, the catalog for an exhibition held at the Getty Center, explores the allure of ruins and examines the roles that they play in modern cultural life. An incisive introduction laying out the general issues is followed by an essay discussing the nature of the fragment. A discussion of the research institute's vast holdings of items relating to ruins. A unique section uses juxtaposed color images and quotations drawn from literary works to point out the longevity and prominence of the ruin as a metaphor.
