this book provides a well researched biblical and scientific overview of abuse a broad overview it deals with the various types of abuse the various effects of abuse and the means of healing abuse can be sexual physical neglect spiritual and verbal the chief arguments pursued throughout the book are 1 abuse is far more rampant than most christians realize but due to human depravity and satanic influence widespread abuse is predicable 2 all types of abuse create profound long term
soul damage due to the way abuse perverts various aspects of the image of god. God is the healing redeemer, human salvation came through horrible physical abuse. Healing must take place in the context of relationships. Humans are deeply impacted by others due to being made in the image of God just as surely as abusive relationships have tremendous power to wound the soul. Healthy relationships have tremendous power to nurture and heal. The soul. Questions answered in the book: How can a genuine believer abuse a child? Why would someone abuse a child? How can parents and children's workers identify abusers? How can abuse victims heal? What does genuine healing look like? Is anger appropriate or hurtful for abuse victims? Where does forgiveness fit in this second edition? It has been updated to reflect research conducted and published in the past 15 years on abuse and trauma. It accounts for the significant social changes and increased mental health struggles in our culture including dramatic escalation in rates of depression, anxiety, suicide, and isolation which exacerbate the effects of abuse and complicate the healing process. Based on their now extensive trauma care experience, this new edition helps readers how to minister to new domestic and global victims such as sex trafficking survivors, foster children, refugees, and survivors of genocide. Examples and illustrations are updated with more recent ones from high profile abuse cases and the aftermath of the metoo movement. The appendixes include lists of helpful resources for child protection policies, worker parent, and child abuse education. Warning signs of potential abusers and general abuse resources. Books, internet, sites, and organizations to equip ministry leaders are provided in appendices. Illustrations, case studies, and art therapy drawings are included.

Volume 1 provides interpersonal insights focused on friendship and enmity between individuals, examining situations that arise in romances at school, at work, and between races, genders, and sexual identities. The text is enriched by a discussion of individual interactions in classic books and movies.
nature volume 2 group and intergroup understanding focuses on group dynamics across time and around the globe. Topics range from group interactions before and after the American Civil War to friendship and enmity between Afghans and Americans today. Human sex trafficking is believed to be the most common form of modern day slavery. The victims of domestic and international sex trafficking are estimated to be in the millions. Most of these victims are female and children. They are enslaved in the commercial sex industry for little or no money. This book will explore human sex trafficking in several nations of origin and destination. This book will explore sex trafficking from the perspective that understanding its causes requires attention to global conditions, while responding to it requires attention to local laws, policies, and practices. Social service workers will need to understand how and why trafficking victims find it difficult to break free and why many victims will not cooperate with those persons who are attempting to assist them. This book will be useful to anti-trafficking agencies and personnel who wish to further understand the nature and extent of human sex trafficking in the U.S. and in countries of destination for sex trafficking. In addition, this book will be of use to students of human rights and social justice who want to join the effort to abolish human sex trafficking in our lifetime. This book was published as a special issue of Women and Criminal Justice.

Just outside Toronto a 14 year old Canadian girl was auctioned on the internet for men to purchase by the hour. A young woman was taken by slave traders from an African war zone to Edmonton to earn greater profits by exploiting her in prostitution. A gang called Wolfpack recruited teenagers in Quebec and sold them for sex to high-profile men in the community. The global problem of human trafficking is only beginning to be recognized in Canada, even though it has been hidden in plain sight. Invisible Chains Benjamin Perrin, an award-winning law professor and policy expert, exposes cases of human trafficking, recording in-depth interviews with people on the front lines, police officers, social workers, and the victims themselves, and bringing to light government records released under access to information laws.

The recruitment of ISIS terrorists may have begun as an extremist crusade in Iraq but it has quickly become a global phenomenon that is taking hold of people from diverse backgrounds, cultures, and belief systems. The iconic image of a terrorist as an old, angry Middle Eastern man is long gone. It has since been replaced by young men and women of all races and religious upbringings in tactical gear and ski masks, carrying heavy artillery from the outside looking into the Islamic State. Most people see these men and women as nothing more than evil terrorists with a psychotic penchant for violence.
internally they perceive themselves as freedom fighters or mujahedeen who violate the laws of men to protect their community according to the will of allah ultimately neither of these perceptions are based in reality while some experts claim that terrorist recruitment is completely random criminologist kimberly mehlman orozco has identified clear patterns which can be used to explain how regular people are being conscripted into terrorism using interviews with convicted terrorists in depth research and analysis of extremist propaganda and case specific details dr mehlman orozco provides nuanced theories into the methods of terrorist recruitment methods which can be used to identify persons at high risk of being targeted the jihadi next door provides unprecedented information that can be used to actually combat terrorism by laying bare the tactics used by isis to deceive and exploit new recruits and exposing the veneer these extremists operate under dr mehlman orozco hopes to empower readers with the knowledge needed to prevent future recruitment and thereby preventing acts of terrorism
