Making Community Design Work 2017-11-08

Since the earliest settlements, people have deliberated the issues that affect their future together. Making community design work shows how planners can guide the process toward effective decision making and beneficial community design. This well-crafted book distills decades of community design experience into a sound conceptual framework of value to practicing planners as well as planning students. Umut Toker covers a broad range of planning scales and introduces field tested tools for participatory decision making at regional, city, community, and site-specific levels. To succeed any planning project must address both the physical space and its users from setting goals to evaluating results. Making community design work helps planners navigate the process of creating environments that meet the needs of the people they serve.

The Palgrave Handbook of Political Research Pedagogy 2021-09-15

This handbook addresses why political science programs teach the research process and how instructors come to teach these courses and develop their pedagogy. Contributors offer diverse perspectives on pedagogy, student audience, and the role of research in their curricula across four sections: information literacy, research design, research methods, and research writing. Authors share personal reflections that showcase the evolution of their pedagogy. Each chapter offers best practices that can serve the wider community of teachers ultimately this text focuses less on the technical substance of the research process and more on the experiences that have guided instructors’ philosophies and practices related to teaching it.
interpreters play a crucial yet often underestimated role in asylum interviews they mediate between the asylum seeker and the interviewer who would not be able to communicate without the help of the interpreter as it is often not possible for applicants to provide written evidence to substantiate their claims their oral accounts of what has happened to them are usually the sole basis for an official’s decision and ultimately a pivotal point in the applicant’s life given the significant consequences of such decisions during the asylum procedure interpreters carry a great deal of responsibility both in terms of their professional behaviour and with regard to the quality of interpretation this handbook now in its second updated and expanded edition responds to the need for qualified interpreters in asylum procedures by offering a theoretical insight into a variety of topics relevant to interpreters in the asylum context as well as activities and exercises enabling experiential and interactive learning it is aimed both at interpreters in asylum procedures who have no formal training and trained interpreters who wish to specialise in the field in addition the handbook is intended for facilitators and trainers to use in face to face training courses the handbook is also relevant to asylum authorities and interviewers providing them with insights into and guidance in working with interpreters

This book explains why dyslexic students frequently underachieve and demonstrates that adjustments in teaching and learning methods can make all the difference. Provided that underlying problems are identified after reading Dyslexia in secondary school teachers will be able to identify children with specific learning problems and know better how to help them with their school work. Examples are based on the curriculum and used to show how to advise students on essay writing, note taking, memorising vocabulary, and reading to remember. Parents and specialist teachers will find that the book helps them translate educational psychologists' theory into practical action. The students themselves will be encouraged to look carefully at how they learn and using their strengths rather than their weaknesses, try out alternative strategies. This book contains diagrams, mind maps, and worksheets as well as many ideas for teachers focusing as it does on the way we learn. Dyslexia in secondary school will interest all teachers and students, not just those with specific learning difficulties.
