learn the differences between trademarks, patents, and copyrights and how to protect your intellectual property rights with the USPTO or the US copyright office. Find out what is legally protected, what are the benefits of federal protection, and what are the examples of each type of intellectual property. Copyrights are registered by the US copyright office at the Library of Congress, while the US patent and trademark office will grant patents and register trademarks. Here is a learn how copyright and trademark protect different types of intellectual property for your business. Copyright covers original works while trademark covers brand names, logos, and slogans. Trademark and copyright can protect the same thing but in very different ways. Familiarity with the different kinds of intellectual property protection allows anyone to separate which aspects the trademark protects and which aspects copyright protects. Copyright vs. trademark: a comparison. Copyright and trademark service mark use original works of authorship identifying goods or services to register at the US copyright office. The US patent and trademark office symbolizes the owner's name and year on all works before registration. The word trademark can refer to both trademarks and service marks. A trademark is used for goods.
while a service mark is used for services a trademark identifies the source of your goods or services provides legal protection for your brand learn the basics of copyright law including what it protects who owns it and how long it lasts find out how to use works that are not yours and the difference between copyright and patent and trademark generally copyrights protect creative works and trademarks apply to brand names phrases and logos copyrights primarily protect the rights of people who create literary dramatic musical artistic and certain other original works like history tests and software code what is a trademark and what is a copyright a trademark and a copyright are both types of intellectual property protection that afford a way to defend against unauthorized use while trademarks and copyrights both relate to intellectual property each protects a different type of asset like copyrights trademarks can have some common law protection even if they are not formally registered but unlike copyrights trademarks can be renewed forever as long as the mark is still a patent protects new inventions processes or scientific creations a trademark protects brands logos and slogans and a copyright protects original works of authorship what are the 3 types to fully safeguard your brand’s identity it’s important to know when to use trademarks vs copyrights since copyrights don’t apply to titles you need trademarks if you want to protect brand and product names furthermore trademarks must be applied for while copyrights are technically automatic copyrights trademarks and patents are the three most
common ways of protecting intellectual property but what they protect and how long those protections last are vastly different.

The CCB is available to resolve copyright disputes of up to $30,000 as an efficient, less expensive alternative to federal court. United States Copyright Office Strategic Plan 2022-2026

Search the trademark database to see if any trademark has already been registered or applied for that is similar to your trademark used on related products or related services or is live to use. This new feature will need to be logged in to your USPTO.gov account and search in expert mode to learn more. See the Viewing your search results section under Get Started on the help page.

We're aware that in a small number of cases, the status shown in the new trademark search differs from the trademark status and document as their copyrights expire. Books, music, and films from Sherlock Holmes and The Great Gatsby to Walt Disney’s original Mickey Mouse enter the public domain, inspiring new creative ideas.
