Pilgrimage beyond the Officially Sacred 2020-06-09 pilgrimage beyond
the officially sacred understanding the geographies of religion and spirituality in sacred travel examines the many ways in which pilgrimage engages with sacredness delving beyond the officially recognized and often religiously conceived pilgrimage sites as scholarship examining the lived experiences of pilgrims and tourists has demonstrated pilgrimage need not be religious in nature nor be officially sanctioned rather they can be hyper meaningful voyages set apart from the everyday profane life in a word they are sacred separating the social category of religion from the sacred this volume brings together a multidisciplinary group of scholars employing perspectives from anthropology geography sociology religious studies theology and interdisciplinary tourism studies to theorize sacredness its variability and the ways in which it is officially recognized or condemned by power brokers rich in case studies from sacred centers throughout the world the contributions pay close attention to the ways in which pilgrims central authorities site managers locals and other stakeholders on the ground appropriate negotiate shape contest or circumvent the powerful forces of the sacred delving beyond the officially sacred this collective examination of pilgrimages both well established and new religious and secular authorized and not presents a compelling look at the interplay of secular powers and the transcendent forces of the sacred at these hyper meaningful sites providing a blueprint for how work in the anthropology and geography of religion and the fields of pilgrimage and religious tourism may move forward pilgrimage beyond the officially sacred will be of great interest to an interdisciplinary field of scholars the chapters were originally published as a special issue in tourism geographies

Muslim Travellers 2013-11-05 pilgrimage travel for learning visits to shrines exile and labour migration shape the religious imagination and in turn are shaped by it some travel such as pilgrimage explicitly intended for religious purposes has equally important economic and political consequences other travel not primarily motivated by religious concerns and thus neglected by many scholars nonetheless profoundly influences religious symbols metaphors practices and senses of community these studies encompassing muslim societies from malaysia to west africa also suggest how encounters with muslim others have been as important in shaping community self definition as encounters with european others
this volume brings together historians, social scientists, and jurists concerned with pilgrimage, scholarly travel, and migration in both medieval and contemporary Muslim societies and explores basic issues. Can Muslim travel be regarded as a distinct form of social action? What role does religious doctrine play in motivating travel and how do doctrinal interpretations differ across time and place? What are the strengths and limitations of various approaches to understanding the transnational and local significance of pilgrimage, migration, and other forms of travel? An image of Muslim tradition and change in local communities in relation to travel emerges which competes with the myth of the universality of the Islamic community.

**Travel and Religion in Antiquity**

2011-03-08 travel and religion in antiquity considers the importance of issues relating to travel for our understanding of religious and cultural life among Jews, Christians, and others in the ancient world, particularly during the Hellenistic and Roman eras. The volume is organized around five overlapping areas where religion and travel intersect: travel related to honouring deities, including travel to festivals, oracles, and healing sanctuaries; travel to communicate the efficacy of a god or the superiority of a way of life, including the diffusion of cults or movements; travel to explore and encounter foreign peoples or cultures, including descriptions of these cultures in ancient ethnographic materials; migration and travel to engage in an occupation or vocation with interdisciplinary contributions that cover a range of literary, epigraphic, and archaeological materials; the volume sheds light on the importance of movement in connection with religious life among Greeks, Romans, Nabateans, and others including Judeans and followers of Jesus.

**Pilgrimage**

1995 from the great Panathenaea of ancient Greece to the hajj of today, people of all religions and cultures have made sacred journeys to confirm their faith and their part in a larger identity. This book is a fascinating guide through the vast and varied cultural territory such pilgrimages have covered across the ages. The first book to look at the phenomenon and experience of pilgrimage through the multiple lenses of history, religion, sociology, anthropology, and art history, this sumptuously illustrated volume explores the full richness and range of sacred travel as it maps the cultural imagination the authors consider.
pilgrimage as a physical journey through time and space but also as a metaphorical passage resonant with meaning on many levels it may entail a ritual transformation of the pilgrim s inner state or outer status it may be a quest for a transcendent goal it may involve the healing of a physical or spiritual ailment through folktales narratives of the crusades and the firsthand accounts of those who have made these journeys through descriptions and pictures of the rituals holy objects and sacred architecture they have encountered as well as the relics and talismans they have carried home pilgrimage evokes the physical and spiritual landscape these seekers have traveled in its structure the book broadly moves from those religions judaism christianity and islam that cohere around a single canonical text to those with a multiplicity of sacred scriptures like hinduism and buddhism juxtaposing the different practices and experiences of pilgrimage in these contexts this book reveals the common structures and singular features of sacred travel from ancient times to our own

The prophet Muhammad made his famous archetypal hijra migration from Mecca to Medina in 622 AD, a year which became the year 1 of the Muslim lunar calendar. The hajj pilgrimage of farewell enacted by the prophet in 632 AD provided the paradigm for all future pilgrimages to the sacred Ka'ba in Mecca while a much quoted hadith portrays the founder of Islam counselling his followers that they should seek knowledge even as far as China. The concept of riha, travel in search of knowledge, thus became a primary motif in the lives of many medieval and modern Muslim scholars, jurists, collectors of tradition, and indeed ordinary people. **Golden Roads** 1993 this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it.
